ABOUT **ZAGOK**

Zagok is a globally engaged import-export company that serves as a trusted partner in the agricultural and recycling industries. Our mission is to bridge the gap between supply and demand for essential agro products and scrap materials across international markets, ensuring both quality and reliability. We operate with a commitment to sustainability, efficiency, and customer satisfaction.

Agro Chemicals :

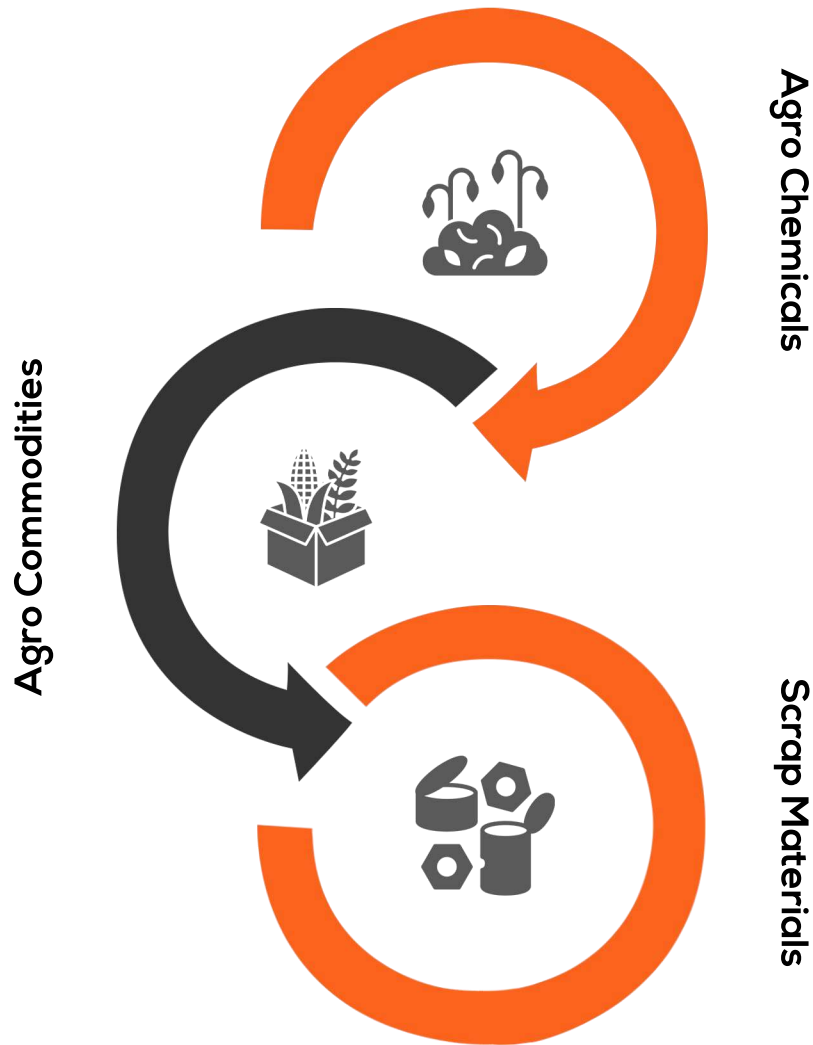

Zagok specializes in exporting high-grade agro chemicals, particularly pesticides that protect crops from pests and diseases, ultimately enhancing agricultural yields. We prioritize food security by ensuring our products meet international safety standards and regulatory requirements.

Agro Commodities :

As a key player in the agro commodities market, Zagok trades essential staples like rice, cotton, and wheat. We are dedicated to sourcing and delivering high-quality products through a robust supplier network, ensuring competitive pricing and timely distribution to meet client needs.

Scrap Materials :

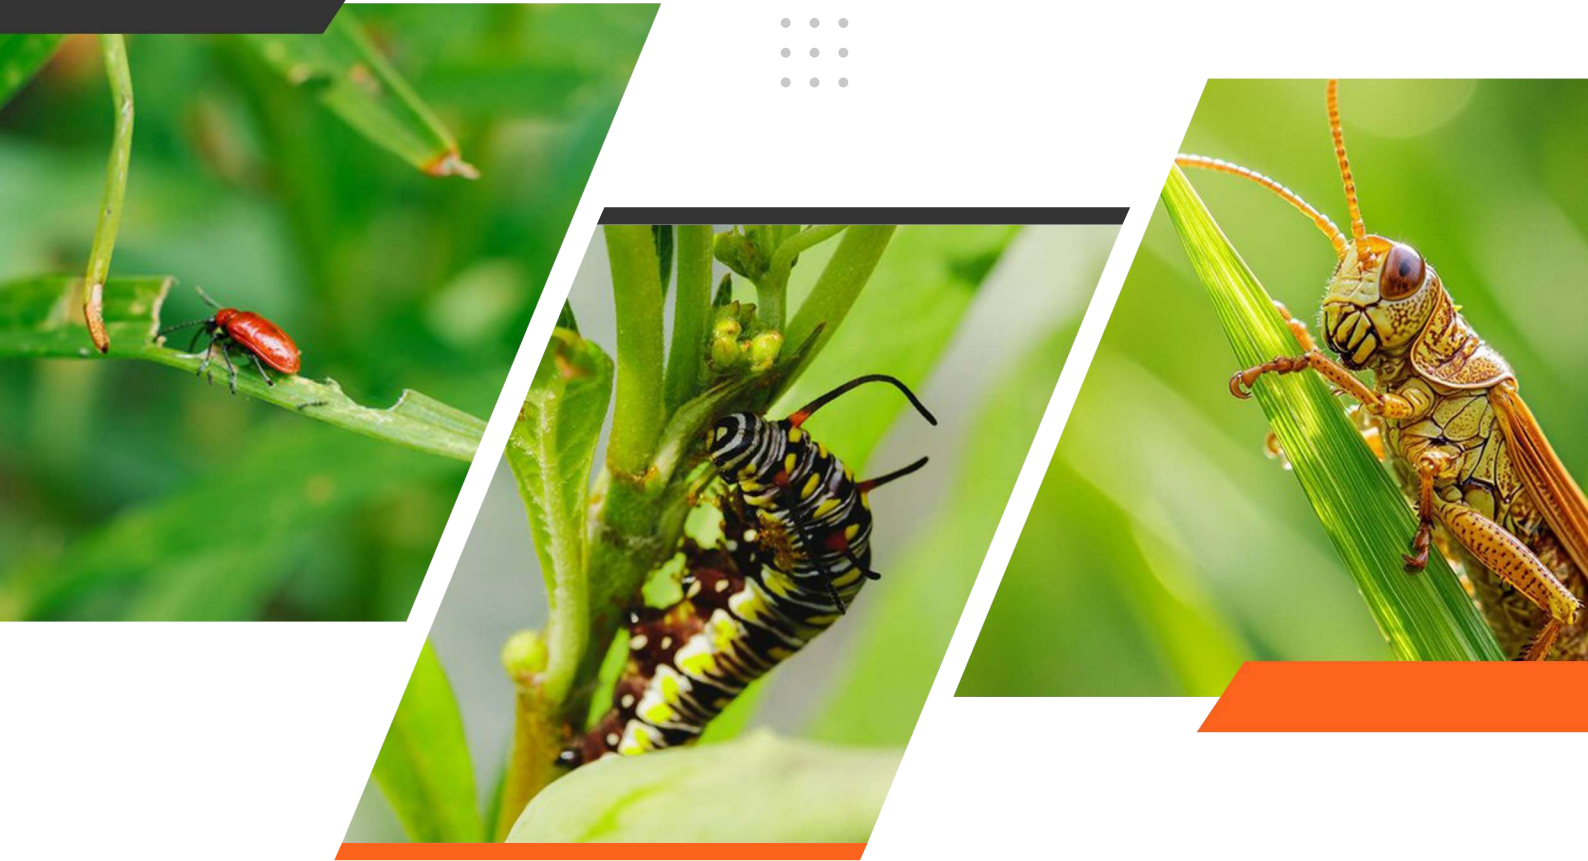

Zagok also trades in scrap materials, focusing on iron and copper scrap. By supporting the recycling and metal recovery industries, we provide manufacturers with essential raw materials while promoting sustainability. Our commitment to quality ensures that our scrap products meet industry standards, making us a reliable partner in sustainable sourcing.

Our Values and Vision :

At Zagok, we prioritize trust, transparency, and a customer-first approach, ensuring smooth and efficient transactions tailored to our partners' needs. We navigate the complexities of global trade with ease.

As a leading force in agricultural and recyclable product trade, we deliver consistent value while promoting sustainability. Whether importing agro chemicals or exporting scrap materials, Zagok is your reliable partner in international trade, committed to innovation and growth in the global market.

Agro **CHEMICALS**

Zagok specializes in exporting high-grade agro chemicals, with a particular focus on pesticides that play a crucial role in protecting crops from various pests and diseases. Our commitment to quality and effectiveness ensures that our products significantly enhance agricultural yields, empowering farmers to achieve better productivity and profitability.

In today's world, food security is more important than ever, and we take this responsibility seriously. That's why we prioritize not only the efficacy of our pesticides but also their safety. We rigorously adhere to international safety standards and regulatory requirements, ensuring that our products are safe for both the environment and consumers. By providing farmers with reliable and safe agro chemicals, we contribute to sustainable agricultural practices that benefit communities and support global food supply chains. Our dedication to quality, safety, and sustainability positions Zagok as a trusted partner in the agricultural sector.

Insecticides Formulation

- | | | |
|--|------------------------|-------------------|
| /// Fipronil | /// Abamectin | /// Deltamethrin |
| /// Acetamiprid | /// Azadirachtin | /// Imidacloprid |
| /// Diflubenzuron | /// Enamectin Benzoate | /// Bifenthrin |
| /// Thiamethoxam | /// Lambda-Cyhalothrin | /// Buprofezin |
| /// Chlorfenapyr | /// Clothianidin | /// Diafenthiuron |
| /// Dinotefuran | /// Ethion | /// Flonicamid |
| /// Indoxacarb | /// Tefluthrin | /// Dimethoate |
| /// Cypermethrin | /// Alphacypermethrin | /// Profenofos |
| /// Pymetrozine | /// Clothianidin | /// Pyriproxyfen |
| /// Thiomethoxam +
Lambda Cyhalothrin | /// Tolfenpyrad | |

Fungicide Formulations:

Agro **COMMODITY**

As a key player in the agro commodities market, Zagok trades essential staples such as rice, cotton, and wheat, providing a reliable supply chain for both domestic and international markets. We are committed to sourcing and delivering premium-quality products through an extensive and trusted supplier network. Our rigorous selection process ensures that we partner with only the most reputable growers and producers, guaranteeing consistent quality and adherence to global agricultural standards. By leveraging our deep market insights and industry expertise, we are able to offer competitive pricing while ensuring timely and efficient distribution to meet the unique demands of our diverse clientele. At Zagok, customer satisfaction and long-term partnerships are at the heart of everything we do, and we continually strive to exceed expectations by delivering value, reliability, and excellence in every transaction.

Groundnut kernel

- Groundnut kernels, also known as peanuts, are one of the key agricultural products we export. They are rich in protein, healthy fats, and essential nutrients, making them popular in the food industry worldwide. Zagok ensures that the groundnuts we supply are free from contaminants and meet stringent quality standards to serve both the food and oil extraction industries.

Cotton

- Cotton is one of the most widely used natural fibers in the textile industry, and Zagok supplies high-quality cotton that meets the demands of fabric manufacturers across the globe. Our cotton is carefully sourced to ensure purity, fiber strength, and uniformity, making it suitable for a range of textile applications from clothing to industrial materials.

Rice

- As a staple food for over half the world's population, rice is a critical commodity in global trade. Zagok offers premium rice varieties, including both long-grain and short-grain types, to cater to the diverse needs of our clients. Our commitment to quality ensures that the rice we supply is clean, well-milled, and free from impurities, making it ideal for both commercial and domestic use.

Onion

- Zagok exports fresh and high-quality onions, known for their flavor, aroma, and health benefits. Onions are a fundamental ingredient in global cuisine, and we ensure that our produce is sourced from reliable farmers who employ the best agricultural practices to guarantee freshness, size uniformity, and shelf life during transportation and storage.

Potato

- As one of the world's most consumed vegetables, potatoes are an important agro commodity for global food markets. Zagok supplies a range of potato varieties, ensuring they are carefully harvested, cleaned, and packaged to maintain their quality during export. Whether used in fresh or processed form, our potatoes meet the rigorous standards of international buyers.

Iron & Copper **SCRAP**

Zagok is a key player in the scrap material trade, with a strong focus on iron and copper scrap. Our role in supporting the recycling and metal recovery industries enables manufacturers to access essential raw materials, reducing the need for virgin metal extraction and promoting a more sustainable, circular economy. By sourcing high-quality scrap that meets stringent industry standards, we help businesses reduce their environmental footprint while maintaining cost efficiency. Our expertise in handling and delivering scrap materials ensures that clients receive products that are ready for immediate use in manufacturing and production processes, contributing to a more resource-efficient supply chain.

In addition to our commitment to quality, Zagok emphasizes sustainability throughout the scrap sourcing process. We work with trusted suppliers to ensure responsible collection and processing, minimizing environmental impact. By partnering with recycling facilities and manufacturers, we help create sustainable supply networks that reduce waste and conserve natural resources, solidifying our role as a reliable partner in eco-friendly metal recovery.

Iron Scrap

- ✔ **Versatile Applications:** Iron scrap is a key raw material for steel production and various other industries. It is recycled to create a wide range of products, from construction materials to automotive parts, contributing to significant energy savings and reducing the need for virgin resources.
- ✔ **Environmental Benefits:** Recycling iron scrap helps reduce carbon emissions, as producing steel from recycled materials consumes significantly less energy than using raw ores.
- ✔ **Reliable Sourcing:** At Zagok, we ensure that the iron scrap we supply meets industry standards, allowing manufacturers to produce quality end products.

Copper Scrap

- ✔ **High Demand:** Copper is a valuable metal used in electrical wiring, electronics, plumbing, and renewable energy technologies. As the demand for copper increases, recycling plays a vital role in meeting this need sustainably.
- ✔ **Energy Efficiency:** Recycling copper saves up to 85% of the energy required to produce new copper from ore. This contributes to both cost savings for manufacturers and a reduced environmental footprint.
- ✔ **Purity and Quality:** We ensure that the copper scrap we source and supply is of high purity, enabling our clients to manufacture products that meet stringent quality requirements.
